

Request for Center for Medical Genetics UZ GENT

Multi-Omics project

Combined "omics" approach to identify the causal molecular defect in patients with genetic disorders.

Ethics committee approval: B670201941523 – EC/2019/1430

CONTACT INFORMATION:

Administration office: T+32 9 332 24 77

Contact: Erika D'haenens and Annelies Dheedene (office: T +32 9 332 16 48, lab: T +32 9 332 50 28)

Label each sample with the patient's name and date of birth (and code if applicable).

Send to: UZ Gent, Medical Research Building 1 (MRB1) – Samples Center for Medical Genetics, entrance 34 (tube transport: 2477), C. Heymanslaan 10, 9000 Ghent.

PATIËNT INFORMATION

STICKER PATIENT

CLINICAL INFORMATION

IDENTIFICATION REQUESTER

NAME PHYSICIAN (stamp possible) + SIGNATURE

SAMPLE SPECIFICATIONS (INFORMED CONSENT MANDATORY)

Long Read Sequencing (LRS)/ Whole Genome Sequencing (WGS)

1x EDTA and 2x heparine

RNA-sequencing

- Targeted analysis (single gene)
- Transcriptome analysis

1x EDTA or skin biopsy
Within 24h in lab, not on Friday afternoon

Secretariat: Lab CYT-EXSEQ + lab CYTO
